

Forward with Faith Campaign Update

The next phase of the Forward with Faith campaign is underway! As Archbishop Blair announced in February, the remainder of this year will be spent identifying, cultivating, and soliciting major gifts donors through personal meetings with prospects.

The campaign's strongest supporters...those pledging \$10,000 or more, have provided more than half of the \$41 million raised to date. The focus now is on meeting with prospects who could be asked to *consider* pledges at this level. These gifts result from private conversations that can address each prospect's interests and respond to their questions. In the fall of 2023, a direct marketing campaign will contact remaining parishioners at all giving levels.

If you would like to have a member of the campaign team help coordinate a major gift solicitation, please contact Mary Simboski of Changing Our World at msimboski@changingourworld.com
